🔒

Security FORTIFICATION

Changing. For the Better.

It's no secret that business today runs on data – the key is turning that data into actionable insight. Zones can help you get there by mapping your very own path to infrastructure transformation. With a smart data centre plan at the foundation of your business, there's no telling how far you'll go.

Hyperconverged • Server & Virtualisation • Data Protection • Disaster Recovery • IaaS

Data Centre

- Improve agility & scalability without sacrificing performance
- Boost workload performance and efficiency while reducing costs
- Safeguard data from corruption, loss, or compromise
- Enable recovery of your applications and data based upon the policies you set

Cloud

- Backup and Recovery to the Cloud
- Hybrid Disaster Recovery to Cloud
- Hybrid Cloud on demand infrastructure

Security

- Protect corporate servers from harmful virus & malware
- Defend against accidental or malicious data loss
- Monitor security alerts for incident response
